ADDENDUM

SWOP4G

The Salt that we will supply to you for this contract is mined in Chile. It is the cleanest salt sold in the U.S today. A product data sheet is included with this bid that shows it meets all ASTM specs as set forth for this contract. We have secured an amount far in excess of the amount for this bid, we have secured the freighters and barges to deliver to our dock in Cincinnati. We have unlimited storage and 24 hour access to this salt and contracts to our trucking companies which should greatly help the participating cities. We have initiated and secured a very complete plan regarding our ability to provide this salt to our customers. All documentation supporting this will be available upon request. Due to the expense of this we will not offer a performance bond, but we offer our contracts as security that we can meet any and all demands of this contract.

PAYMENT : we request if this bid is accepted that we be paid as follows. 50% down of total contract upon acceptance of contract with the balance to be paid upon arrival of salt into the Port of New Orleans. Our contract to the mine stipulates that we pay to them in this manner. If this is not met in this manner we will add an additional \$8 per ton for financing, with the balance of the 50% due upon arrival of barges into Cincinnati . Failure of this would be considered a default of agreement. We have gone to great expenses to provide to our customers with a great product and exceptional service. We have covered every detail to provide this product to our customers

We also offer to **SOUTHWEST OHIO PURCHASERS FOR GOVERNMENT** the ability to store this product for the entire season on our dock and to have access to this salt 24 hours a day in case of an emergency need. We offer these prices to all cities that are not included in this bid with advance notice on the same terms as in this bid
